CYBER TRENDS is a two-day International professional conference divided into four sections accompanied by live demonstration and simulation test area, professional workshops and Table-top exhibition of partners' solutions and products. The conference is a part of international project FUTURE FORCES FORUM which includes set of EXPERT EVENTS and the International defence and security exhibition FUTURE FORCES 2016.

The conference will be held in Prague, capital of the Czech Republic. The conference is

primarily aimed at the security and information community of the public sector, armed and security forces, the academia and private business cooperating in projects of public interest. The conference is focused on developing international cooperation in cyber security in Europe, with special focus on the Czech Republic, Slovak Republic, Hungary and Poland.

It is expected that more than 500 professionals will participate, including representatives from NATO, European Union and other international institutions.
