

International Security Conference

SCADA SECURITY

Organized as a part of FUTURE FORCES FORUM

4 – 5 November 2019 • Hotel DAP, Prague, Czech Republic

Critical information infrastructure forms the backbone of modern society. Industrial control systems (ICS) are an important part of the critical infrastructure, unfortunately not enough emphasis has so far been put on them even though cyber attacks on ICS have increased significantly in the recent years.

Cyber security plays an important role also in the Internet of things (IoT) that is in the network of physical devices, vehicles, home appliances and other equipment embedded with electronics, software, sensors, moving parts with network connectivity to communicate and exchange data.

Conference Audience

The conference focuses on the security, operational and IT community of the critical infrastructure, public sector, armed and security forces, academia and private sector taking part in the projects of protecting the critical information infrastructure, with more attention given to the current topics in cyber security.

Experts estimate that the Internet of things will consist of more than thirty billion items in 2020.

The conference focuses mainly on current topics in the security of ICS and the Internet of things and other related topics. The conference follows on from previous events on security organised under the Future Forces Forum (FFF), creates the unique forum for both partners and participants to discuss and share information and experience in the ICT and cyber security areas. It will also look for alternative solutions of the issues on hand, in particular by engaging world-renowned professionals in security of ICS systems.

The conference focuses on these topics:

- **Current and future cyber threats and their solution**
- **New trends in technology in the ICS security**
- **Connected world, Mobility and the Internet of things**
- **Human factor and related topics**
- **Public safety in smart cities**
- **GDPR in environment of the smart cars**

Patronage and professional sponsorship

Conference Programme Committee

Mr. Petr JIRÁSEK
Member of International Cyber Committee, Czech Republic
Chairman

Prof. Boris ŠIMÁK
Czech Technical University in Prague, Czech Republic
Honorary Chairmen

Assoc. Prof. Josef POŽÁR
Vice-Rector for Strategy and Development, Police Academy of the Czech Republic in Prague, Czech Republic
Honorary Chairmen

Members

Mr. João Miguel ĀNES
Cybersecurity Board Member, AFCEA Portugal

Mr. Jaroslav BURČÍK
Director ITU Cyber Security Center of Excellence, Czech Republic

Mr. Jan DIENSTBIER
Vice-president, ČIMIB Czech Republic

LtCol. Petr HRŮZA
Member, Czech Cyber Security Working Group AFCEA, Univerzity of Defence, Czech Republic

Col. (Ret.) Ladislav KOLLÁRIK
Vice-president, AFCEA Slovak chapter, Slovakia

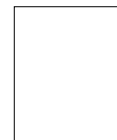

Mr. Zdeněk LOKAJ
Faculty of Transport, Czech Technical University in Prague, Czech Republic

Mr. Tomáš MÜLLER
President, AFCEA Czech Chapter, Czech Republic

Mrs. Barbora NEKOLOVÁ
Representative, ČIMIB, Czech Republic

Dr. Josef PROKEŠ
Vice Chairman, Data Protection Office of the Czech Republic

Mr. Tomáš PŘIBYL
Member, AFCEA, Czech Republic

Mr. Vladimír ROHEL
National Cyber and Information Security Agency, Czech Republic

MGen Ret. Erich STAUDACHER GEAF
General Manager, AFCEA Europe, Germany

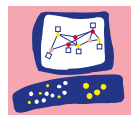

Mr. Jaroslav ŠMÍD
Deputy Director, National Cyber and Information Security Agency, Czech Republic

Mr. Martin UHER
Board Member, EUCYBSEC, Czech Republic
